

## Functions of Behavior Activity

What are the 5 Functions of Behavior? List them below.

T \_\_\_\_\_

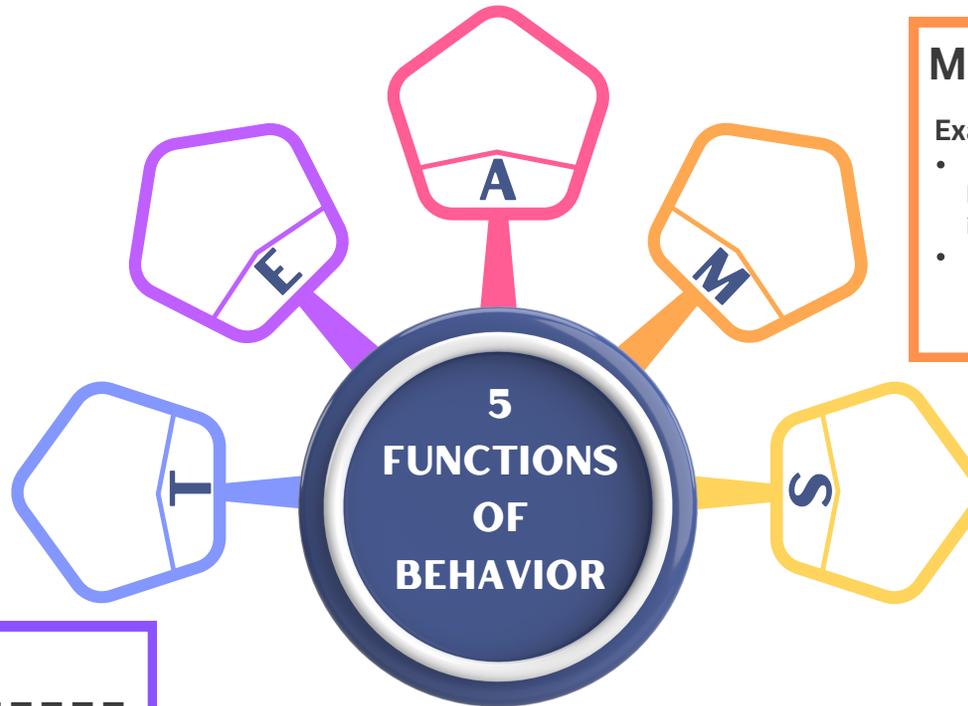

Examples:

- Child does all his chores so he can get his allowance
- 

M \_\_\_\_\_

Examples:

- Child is crying and pulling on her ears because she has an infection
- 

E \_\_\_\_\_ / \_\_\_\_\_

Examples:

- Child asks for extra bedtime stories to avoid going to bed
- 

A \_\_\_\_\_

Examples:

- Student makes noises when it's quiet in the room. All the other students laugh so she does it again in the future.
- 

S \_\_\_\_\_

Examples:

- Student plays the intro to their favorite YouTube video over and over again because they like the way it sounds
- 

In the boxes provided, list some examples of each function. One is provided for you to get you started!
